

Clarity Together Campus

*Building a Lifeline
for Families In Need*

The mission of Claris Health is to equip and care for individuals and their families before, during, and after pregnancy and sexual-health choices. For **nearly 50 years**, Claris has walked alongside individuals and families in their most vulnerable moments, offering **medical, mental health, and support services** that foster hope and stability.

We serve **all of Los Angeles** through two clinics in **West and South LA** and a **mobile clinic**. In the past decade, **15,000 families** have found life-changing support—

and we are just getting started.

Nearly half of pregnancies in South Los Angeles are unintended. Many of these parents face trauma, housing insecurity, and domestic violence where the healthcare system is failing them. Navigating a fragmented healthcare and social services system without transportation or childcare and with a high mistrust of providers leaves families without options for care.

The **Clarity Together Campus** represents a critical shift in care—reducing barriers and coordinating care.

A Call for Urgent Action

South Los Angeles families face systemic barriers and preventable health disparities:

- **Teen birth rates** in South LA are the highest in Los Angeles County
- **African American infant mortality are three times the rate** of caucasian infants
- **One in three** residents (33.6%) lives below the Federal Poverty Line.
- **One in three** adults struggle to access healthcare services.

The community deserves a solution. The **Clarity Together Campus** offers a community-centered model to meet these urgent needs.

A Groundbreaking Solution

The **Clarity Together Campus** brings together **medical, mental health, financial, and educational resources** in one trauma-informed setting. This model **reduces family separation risk** and ensures timely, compassionate care in one location - when and where families need it most.

This pioneering model has the potential for *national replication*, particularly in:

- **States with restrictive abortion laws**, where birth rates are rising among individuals who may lack resources for parenthood.
- **States with high abortion rates**, where families who choose parenting or adoption often lack necessary support.

A Hub for Healing and Opportunity

Located in **Inglewood, CA** the **28,000-square-foot facility** is designed for impact:

- **Affordable offices** for aligned service providers.
- A unified, **trauma-informed care network**.
- **Care Coordinators navigating families through services efficiently.**
- A **welcoming, community space**, with free drop-in childcare, a safe playground, coffee shop, and event space.

The **Clarity Together Campus** is an **investment in generational change**—where families receive not just services, but a **pathway to stability and hope**.

A Transformative Approach to Care

The **Clarity Together Campus** will:

- **Eliminate travel and access barriers.**
- **Ensure timely**, coordinated referrals.
- **Support trauma recovery in a safe space.**
- **Increase healthcare engagement** by 50%.
- **Foster** community through events and educational workshops.

Funding Plan - Clear and Impactful

Total Philanthropic Goal: \$26.9M

- Property: \$5.3 million
- Design and construction \$20 million
- Campaign Costs \$600,000
- Three-year expanded operations \$1 million

This project will be **fully funded through philanthropy**– a **debt-free** launch for long-term sustainability.

The Vision & Campaign Progress

Phase 1 – Laying the Groundwork

Achievements

- Proof of concept established
- Property purchased
- \$13.2 Million raised (50%)

Phase 2 – From Planning to Reality

- \$9 Million needed to kickstart construction and tenant commitments
- Ground Breaking & Construction

Phase 3 – Building a Replicable, Community-Centered Model

*"When I first found out that I was pregnant, I was single, homeless, and didn't know what to do. I learned about Claris at a community outreach fair and I knew that I was no longer alone. They became my emotional and physical support and even helped me get connected to long-term housing. They were instrumental in building my confidence to create a better future for myself and my child. I'm now married to a wonderful man and we have three kids. **Life is no longer happening to me; it's happening for me.**"*

- Alencia, former patient

"Our clients know we don't bring any outsiders in that they can't trust, and so partnering with Claris is really the ideal warm handoff. We're there with each other. They see the [Claris] medical staff communicating with us and they know it's not going to lead to unnecessary involvement with child welfare or any other system.

**-Danielle Lowe, Behavioral Health
Services Director, Shields for Families,
Future tenant of the campus.**
